Various items will be available at the table, and the Cuban Type Set Books will be available for sale. Stop by and say "HELLO".

Members are encouraged to **consider nomination** for the following position that is up for re-election: Director. If you are interested, please contact Frank Putrow at 7275317337 or Fxputrow@aol.com, and he will provide you with the job responsibilities, or put you in contact with an incumbent. Please consider this opportunity to become a Director of your CNA. Nominations will also be accepted from the floor during the General meeting.

The meeting agenda will include elections, old and new business, door prizes, and an auction of articles brought by attendees. IF a member, who will not attend the meeting, is interested in placing article(s) in the auction, please contact Frank Putrow NLT 12-26-12.

Door prizes are broken down in two categories: (1) single tickets given at no charge to attendees, who could win up to five door prizes, and (2) 50/50 tickets sold for \$1 ea. or 6 for \$5. The 50/50 ticket holders could win any of five prizes, and 50% of the tickets sold. THIS YEAR, CNA MEMBERS WHO WILL NOT BE ABLE TO ATTEND THE MEETING CAN PARTICIPATE IN THE 50/50 DRAWING. Any member interested in participating may purchase 50/50 tickets in advance. Member Profile

Since the membership of CNA is so diverse, and separated geographically, it may be feasibly impossible for our members to meet and get to know one another. This section will highlight a member, or members, in each newsletter, providing a brief background of the person(s), so the membership may know a little about the person(s). It will be 100% voluntary. The officers and board members were first to provide their background, followed by the charter members, then the regular members.

The CNA is privileged to have members of various ethnic, economic, political, and educational backgrounds. Among the mix are: business executives, lawyers, medical doctors, and PhD's in religion, education, science, and government. The core of the CNA remains the "average" person, with numismatic interests, but it is interesting to know that such a variety of collectors are on our membership rolls, such as:

Robert Freeman, Current CNA Treasurer.

Reprinted from CNA newsletter #2-05 (April 2005)

A Floridian for more than 50 years, Robert Freeman, your Association Treasurer, is not a coin collector. While Bob dabbles in coins from the Napoleonic period from 1799 to 1815, Bob is basically a collector of books and camellias with a strong interest in educational games and in particular educational war games.

Thanks to the knowledge gained from being a member of the Association, Bob owns some coins relating to Cuba, boasting a 1935 ABC Peso (cleaned) from the stash of a relative of Fidel Castro, a barely identifiable 1788 counter stamped Spanish and Cuban coin (Thank you Jorge China), and a 1908 "Fighting Bob Evans" token. Now is certainly a golden time for Cuban coin collectors at the FUN show. Jokingly, Bob refers to himself as the "worst known" collector. Bob is the guy who is buying the poor quality coins -- particularly if there is some sort of ancient writing craved on the coin or if the coin has an interesting claimed history.

On most weekends, Bob can be found working with young people teaching and playing educational games of all types. Bob is also the Treasurer of the North Florida Gaming Association, a group that provides gaming space for up to 100 kids a week so they can play educational games in Tallahassee, Florida.

In the 8 to 5 world, Bob is an accountant who works for the State of Florida and helps set the prices of electric, gas, telephone, water, and sewer services throughout Florida. Note: Bob retired from the State of Florida in 2012.

In the future, Bob hopes to bring great books and other materials that might be overlooked to the attention of the members. Basically, Bob's interest in the Cuban Numismatic Association is to ensure we have a great time at the meeting in Orlando's next FUN show.

THE STAR AND KEY CLUB, organized in 1966 in Houston, Texas.

What is the Star and Key Club?

It was dedicated to Cuban Numismatics. Many Cuban numismatic enthusiasts, including myself, never heard of this club.

Arthur Matz, the president of LANSAs, and a member of our CNA, was one of the charter members of the club. He recently sent your editor a "trove" of interesting documentation that he had saved from 1966 to 1969. It includes monthly newsletters (CUBAN NUMISMATIST), membership names and supporters, as well as a rare "wooden" emblem of the club's coat of arms. The emblem is "the guiding star to the key which will enlighten us in our search of Cuban Numismatics." The emblem was designed by Renaldo Castellanos from Santurce, Puerto Rico.

The club was the brainstorm of A. A. "Red" Johnson, who served as president, secretary, treasurer, editor, and promoter. In 1967, Margaret Hilton was listed as the Club Secretary. In 1968, Larry Morton was listed as Club President.

Johnson's newsletters, *The Cuban Numismatist*, reveal that he was very intelligent and informed. It is interesting to note that Johnson declared that "the club was neither pro nor con on any religious or political issue." Today, your CNA openly declares the same standard.

It is believed that the Star and Key Club was incorporated into the Houston Coin Club in the early 1970's. Any information regarding this issue would be very much appreciated. The "trove" will be available for review at the upcoming CNA Annual meeting in Orlando on January 12, 2013.

QUIZ:

What is the heraldic meaning of the details of the Cuban Coat of Arms on the reverse of most of the Cuban coins?

Answer on page 6.

VERY RARE FIRST CIRCULATING NOTES OF THE NEWLY FORMED CUBAN REPUBLIC. 1905 ONE, TWO, FIVE & TEN PESOS.

SHIP OF GOLD – The S.S. Central America.

This wonderful book, written by Gray Kinder, is very intriguing because it describes the threatening routes that many of the "gold" ships took in their voyages between California and the US East Coast. The routes included Havana, Cuba. The book specifically described the demise of the S.S. Central America and 400 of the passengers during a hurricane in September, 1857. Over 21 tons

of gold also went down with the ship in 8,000 feet of water, about 175 miles east of Savannah, Ga.

Two CNA newsletters (2-11 and 3-11) promoted the book.

Now, there are plans to make a movie about the “SHIP of GOLD”. The director is rumored to be Doug Liman, who also direct the Bourne Identity (2002) and Mr. & Mrs. Smith (2005).

Make sure to put this movie on your “Must Do” list when (and if) it is released.

MAJOR DISCOVERY REGARDING CUBA 1915 PROOF 20 CENTAVO.

Emilio M. Ortiz, CNA Director, reports that NGC has verified that the Cuban 1915 20 centavo PROOFS were minted in both Fine and Coarse readings.

NGC has now certified, and will include in the Registry these pieces with Fine as well as Coarse Reeds. As you are aware, these readings were known in MS condition, but not in Proof. Krause does not list them either. For Krause to add these variations in their SCWC, they must have visual examples. CNA will pursue this matter.

THE CUBAN NUMISMATIC ASSOCIATION IS PROUD
TO ANNOUNCE THE DEVELOPMENT OF THE
REPUBLIC OF CUBA 1ST REPUBLIC 1915-1958 TYPE SET BOOK.

The book is 8 1/2” X 11 1/2”, weighs 17 oz. and includes a booklet about the brief history of Cuban Numismatics. The book was designed for those “TYPE SET” collectors, who are not interested in collecting all the coins that make up the Cuban mintages. The book was designed for those “TYPE SET” collectors, who are not interested in collecting all the coins that make up the Cuban mintages.

The book is now available for purchase. Paid up CNA members may order a maximum of two for \$14 each, which includes Florida sales tax (where applicable), and S&H. International, excluding Canada – add \$5for additional mailing costs. Non-CNA

Answer to QUIZ:

The heraldic meaning of the Cuban Coat of Arms, provided by Mr. Ardois, formerly of Puerto Rico and the President of the Cuban Numismatic Society in Exile. (from the Cuban Numismatic newsletter, dated February 1967).

SUPERIOR QUARTER: The rising sun enlightens the new nation surging forth to free life. The key represents Cuba between two points of land (Cape Catoche in Yucatan, Mexico, and Cape Sabre in Florida USA). It has the dual significance that Cuba being the Key of the Gulf of Mexico, (as it has been called for centuries), is at the same time the union binding the two gigantic portions of lands, the two Americas.

LOWER RIGHT QUARTER: The three blue diagonal stripes represent the departments which in those days were the political divisions of the island. The white stripes represent the purity of intentions of the newly born Republic.

LOWER LEFT QUARTER: The Royal Palm, which only grows spontaneously in fertile soil abounds amazingly in Cuba and represents the fertility of the land of Cuba, and is by its majestic beauty the National Tree, besides is unique for being totally useful in the vital needs of the rural population.

THE FAGGOT OF STICKS: (FASCES) Represents the force of unity in action.

THE PHRYGIAN CAP: Is the symbol of Liberty.

THE SOLITARY STAR: Represents the sovereignty of the fatherland.

THE WREATH OF LAUREL: Represents Victory.

THE WREATH OF OAK: Represents long life and strength.

LETTERS TO THE EDITOR

NOTE: Responses to Letters to the Editor are provided by CNA members, who volunteer their time, and have a variety of expertise. Some information may be misrepresented or partially incomplete. 1. R. M. sent the following email:

I am a collector of Cuban coins living in Spain and have recently discovered your Cuban Numismatic Association. I must say I am very impressed by the quality of your quarterly publications.

As I could learn from this publication, you are in close contact with specialists and high officers of the Cuban mint at the Central Bank of Cuba. I am writing to you in the hope that you either know the answer to my question or can contact the right person at the BCC to answer it. My question is as follows:

I am intending to complete my collection on Cuban CUC coins, which, as you know were minted in 1994 for the first time in several denominations. All the information I have concerning the years of coinage is the one provided by the World Standard Catalogues. However, some recent data gathered from bulletins issued by a numismatic association in Havana makes me strongly doubt of the accuracy of the years of coinage published in the catalogues. This has been also confirmed by the impossibility to find some of the years listed. Would it be possible for you to obtain this information: i.e. the actual years of coinage of each of the Cuban CUC's (one, five, ten, twenty-five, fifty centavos and one peso) from 1994 to date?

I can tell you that the World Catalogue is especially misleading with the CUC coinage after 2000. In particular (but not only), for the denominations of one centavo CUC Aluminum and five centavos CUC.

I would like to thank you in advance for your time and, please, receive a warm congratulation from a group of Spanish followers. We all share the same passion!

Editor:

Thank you for the email regarding the Cuban CUC coins.

I wish I could be of help to you, but the CUC coins are also somewhat of a mystery to me, for the same reasons you state.

About 7 or 8 years ago, I arranged for the Cuban Mint to electronically transmit data of newly minted coins directly to Krause (World Coin Catalog) via the internet. This was a new concept, and Krause should have contacted other countries to initiate this process to simplify the addition/correction of the country's coins into their catalogs. However, the ownership of Krause (F+W Media, Inc.) reduced staff, and this additions/corrections process was never fully implemented.

I believe that the Cuban Mint stopped these transmissions, and Krause now relies on sellers and collectors to forward additions/corrections to them. This is the same process used by Krause for years. I was able to communicate directly with an employee of the Cuban Mint at that time, but she no longer answers my emails. I am not sure what has happened to her?

Actually, you are in an excellent position to deal directly with the Cuban Mint and the Central Bank of Cuba. You are not restricted by the embargo of the US on Cuba. US citizens, as well as the Cuban Nationals, are not really sure of the extent of relationships in matters such as this.

I would appreciate any information you receive from the Cuban Government in this matter.

#2. J.L.B sent the following email:

I have a Cuban silver coin cinquenta anos de libertad y progreso 1952 on one side with a tree coming out of a cartwheel and a flag and lighthouse on the other side. Could you please tell me anything about it? It weighs almost 10 grams.

Editor:

Thank you for the email regarding the 1952 Cuban coin.

You state that it is a silver cinquenta coin, but I think that the description aptly fits the Cuban 1952 cuarenta (40) centavo coin, which is 10 grams, and .900 silver. Please correct me if I am wrong.

The coin will vary in value from current silver value to \$60 if bright uncirculated. On average, a circulated 1952 40 centavo will be worth about \$10 if not flawed.
 The coin was minted at the US Philadelphia Mint.

#3. A. sent the following email:

I need to know what dates are from 5 cents to 1 convertible peso from 1999 to 2012, and what are the dates centavos to a national weight from 1999 to 2012 (no coins notes).
 Thanks for everything.

Editor:

Thank you for the email regarding the Cuban Convertible series of coins. I can provide you with the information that is in the Krause World Coin Catalog, but I am not confident that all of the information is current.
 Your request for information about the "no coin notes" is not clear, so I cannot address that part of your email.

Here are the listed dates of the Cuban Convertible Series from 1999 to 2012:

	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012

#4.M.T. sent the following email:

I'm writing to you because I'm in possession of a Cuban coin from 1935 (un peso plata, silver). I wonder if there could be anyone interested in buying this coin and what could be its value.
 Thank you very much in advance for your kind attention.
 Looking forward to your answer.

Editor:

Thank you for the email regarding your 1935 Cuban ABC Peso. The coin is common, but the ABC Pesos are generally more costly than the 1932-1934 Star Pesos. Depending on the condition and if it has been cleaned/polished/scratched, the value could be from \$30 (silver value) to \$200 (bright uncirculated).
 There are many coin dealers in the Miami area who will buy the 1935 Peso. I will give you a few names if you contact me specifically requesting them. Otherwise, I think that you would probably be treated fairly by most of the Miami dealers.

#5. F.C sent the following email:

I am a serious numismatic collector, and I live in Cuba. I write because I watched the CNA website on the Internet, and I wonder if you or another collector of the association is interested in buying tickets (Banknotes) and coins (coins) Cuban, the 40, 50, 60 and silver commemorative coins in 1952 and 1953, as well as coins from the U.S. and the world, if you

really interested in my offer, you can contact me at this address email (editor will provide to interested party) or resend my e-mail to other collectors association for them to contact me.

Editor:

Thank you for the email regarding your Cuban currency and coins.

Your email is difficult to respond to, because of the embargo policy of the United States.

I can only speak on behalf of the Cuban currency and coins.

You state that some of the coins are 1952 and 1953, and/or "commemoratives", which are generally 1977-current day. This mix leaves me unsure of how to respond to your email.

So, at this time, I hesitate to forward your offer to my fellow Cuban Numismatic Association members.

Personally, I look forward to our governments resolving this issue, when we can openly trade with our Numismatic brothers.

We have a question to ask of you or the members. We purchased a book titled: LA MONEDA DE CUBA by JOSE MARIA ALEDON. The book covers coins up till 1999. Do you or does anyone know if there is a more current book that covers coins from 2000 and on.

Thank you and happy holidays

Editor:

Regarding LA MONEDA DE CUBA:

It was published by the Cuban Mint in 1999. The Mint commissioned Jose Maria Aledon in 1977 to put the book together. He was selected because of his background in numismatics and publishing.

I also have the same book and regard it as a very good reference.

I am aware of another book with the same title and a different cover, but I have been unable to get any details of that book. I am not even sure if it was written by Aledon.

There is an earlier reference book (Emisiones De Moneda Y Billetes 1915-1980). It is a red book of 96 pages. I will be looking for a copy on eBay, and the other book web sites. I am unaware of the writer as well.

Sorry that I could not better answer your inquiry.

NUMISMATIC HISTORY ALIVE!

Puerto Rico became a U.S. territory as a result of the Spanish American War. Apparently there was an intention to replace the Peso/Peseta coinage with a U.S./P.R. Peso/Dollar system. To that effect, U.S. Mint chief engraver Charles Barber sketched a drawing for a possible pattern. These sketches were recently found and published by the Smithsonian Institute. Now, Numisrev Co. brings it to life inspired on the published drawings, to coincide with the issue of U.S. Territorial, Washington Quarter this year. The mintage is 100 pieces, all numbered - 1.75" diameter, reeded edge with antique silver finish.
